Recommendations based on the Channel Data Analysis

Biggest opportunity: Long-form videos get 75% more views than Shorts on average, but they're only 16% of your uploads. Flipping that ratio is the single highest-leverage move.

Title formula that works: 5–12 words + exclamation mark. Avoid question marks — they tank views by 66% on average. That's a dramatic and clear signal.

Post on Tuesdays at 11am above everything else. That slot averages 126K views vs. the channel mean of 7.9K. Friday 8am is your strong backup.

Duration sweet spots by format:

- Long → aim for 40–55 minutes
- Medium → 16–17 minutes is the clear peak
- Shorts → keep it under 57 seconds
